	Percentage of Marks in:	Multiplying Weightage
A	Secondary School Certificate - Matriculation: (Science Group).	0.10
B	Higher Secondary School Certificate (Part-I)	0.30
C	Pre-admission Test:	0.60

For example, if a candidate has secured 70% marks in SSC, 60% marks in HSC Part-I and 50% marks in Pre-admission Test; his/her CPN would be: $70*0.1+60*0.3+50*0.6=7+18+30=55$ (Percent)

Explanations:

- In case, a candidate has already completed his / her intermediate or equivalent qualification, his / her Part-I result would be used in computation of GPA.
- In case of foreign qualification, letter grade will be converted to marks by IBCC formula. IBCC equivalent certificate is required to be submitted after admission.
- All candidates, with the exception of DAE qualified candidates, who have appeared in a particular subject combination in the Entry Test, will only be considered for admission in the prescribed disciplines relevant to the subject combination.
